

Robotics and Technology Club

27th of January, 2017

Dear Parents/Guardians,

Students interested in robotics and technologies are invited to participate in *Robotics and Technology Club*, which will run every Thursday from the 16th of February until the end of the Term 4, between 3:30pm and 4:30pm.

This fantastic opportunity will give students insight into the foundations of robotics and future technologies. Students at times will be required to work in teams in order to critique, design and make and program their own robots.

In addition to the above students examine real world technological problems, technological philosophy and computing technology.

The aim of *Robotics Club* will be to try and fulfil the requirements of two Australian robotic competitions. The first is *RoboCup Junior Australia* and the second competition is *First LEGO League Australia*. Both competitions will require students to represent *Prescott Southern* outside of the school.

You are invited to visit the websites below for more information about the competitions:

- *RoboCup Junior Australia*

<http://www.robocupjunior.org.au/home>

- *First LEGO League Australia*

<http://firstaustralia.org/>

Permission slips and corresponding information about these events will be issued closer to the event dates.

If you have any queries about any of the above please do not hesitate to contact me.

Ryan McFly
Robotics Co-ordinator

Christine Clark
Principal

Students Name: _____ Class: _____

My son/daughter has permission to participate in *Robotics Club* every Thursday between the hours of 3:30pm and 4:30pm. I verify that I am able to collect my child from the *Prescott* parking area at 4:30pm.
