

CLASS PLACEMENTS 2017

Please return this form by Tuesday, October 17

The following information will be considered in your child's placement. The class placements are made through consultation with staff and consideration of friendship groups. Children are not placed according to ability as all classes have the capacity to handle a variety of levels. The information you provide on this form will assist us in ensuring we have the correct information about your child, particularly in relation to friendships. If this information is confidential, please place in a sealed envelope before returning to the school office.

Standard Health Care Support for the most common health conditions:

Asthma	<p>Any child currently prescribed asthma medication must bring their Medication. Asthma care plan should be attached to this consent form.</p> <p>Standard First Aid:</p> <p>Four puffs of reliever medication. Wait four minutes. If no relief, four more puffs, wait four minutes. If still not relief, call an ambulance. no return to the water after two lots of reliever medication within any given session.</p>
Seizures	<p>No swimming without health care plan from doctor/seizure specialist. Any student with a diagnosed history of seizures must have an adult acting as one to one safety watch, provided by school. Seizures are generally managed in the pool. Continuation in the swimming program that day will be assessed by supervising teacher in consultation with student's health care plan.</p>
Diabetes	<p>No swimming without health care plan from doctor/diabetes specialist. First aid as per individual diabetes care plan.</p>
Severe Allergy	<p>As per allergy specialist care plan</p>
Drainage Tubes in Ears	<p>Ear wrap or properly fitted plugs to be worn throughout water activities unless written medical advice is provided saying this is not necessary.</p>
Incontinence	<p>As per care plan. Any accidents that result in contaminated water must be managed as per health regulations.</p> <p>Cryptosporidium Infection</p> <p>Cryptosporidiosis is caused by the parasite Cryptosporidium. It is highly infectious and can be transmitted by swallowing water contaminated by the parasite in public swimming pools. The main symptoms associated with this illness include watery diarrhoea with stomach cramps. If your child has been diagnosed with Cryptosporidiosis or has had these symptoms recently, they should not use public swimming pools for 14 days after symptoms have stopped.</p>
Choking	<p>As per care plan</p>
Infection Control	<ul style="list-style-type: none">- All open wounds must be covered, for the child's own protection, with a waterproof occlusive bandage- Students with significant unhealed wound(s) will be advised not to go swimming until the wound has closed.- Students with ringworm should not commence swimming until at least 24 hours after commencement of appropriate treatment (usually a topical anti-fungal cream)- Students with tinea should not go into pools or change rooms until at least 24 hours after commencing appropriate treatment- Wearing slip-on footwear while walking in the pool area and change rooms protects against transmission of some infections such as tinea.
