

STEM Projects: Primary Technology and Robotics

January 31, 2018

Dear Parents/Guardians,

Primary students interested in technology and robotics are invited to participate in *STEM Projects: Primary Technology and Robotics*, which will run every Monday from the 12th of February.

Students interested in technology, robotics, coding and electrical engineering are encourage to use the technology space with Mr McFly and Miss Appadoo. Students seen in this space may be working on small electronic projects, improving coding skills, programming, working with printed circuit boards, building functional PCs and rendering/3D printing their own design projects.

In addition to the above students may examine real world technological problems, technological philosophy and computing technology.

Year 1-3 students will be working with Kimberley Appadoo and Year 4-6 students will be working with Ryan McFly.

If you have any queries about any of the above please do not hesitate to contact me.

Ryan McFly
